-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 14 April 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 8, and 12-13 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 98/17493.

WO 98/17493 discloses all the limitations of the instant claims including: a control system having one or more inputs indicative of a vehicle operating state, and an output for determining whether a compressor is on-load or of-load, the system further including target means to calculate a target pressure (P min, P int, P max) for a reservoir downstream of said compressor, said output being responsive to said target means, wherein the target pressure changes within the throttle off mode (either p max or p int is selected depending on braking probability at step 42) and is higher (up to Pmax, box 20) during throttle-off modes than throttle-on modes (limited to Pmin). Note the selection of the target pressure is carried out in real time.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3683

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4-5 and 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 98/17493.

Regarding claim 4, WO 98/17493 discloses all the limitations of the instant claim with exception to the higher target pressure being 8-10% higher. It would have been obvious to one of ordinary skill in the art at the time the invention was made to determine the appropriate target pressures of WO 98/17493 through routine calculation and/or experimentation to determine the optimum values for a particular compressed air system, thereby enhancing the performance of the system. Also note, *In re Aller*, 220 F.2d 454, 456, 105 USPQ 233, 235 (CCPA 1955).

Regarding claim 5, note p max.

Regarding claims 9-10, note page 5, lines 5-15.

Regarding claim 11, note p max.

### ***Response to Arguments***

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
